About Me

I'm a front-end developer and HackerYou graduate from Toronto with just over seven months of professional experience. Most of my experience is in WordPress and PHP, but I also enjoy using JS and jQuery and am always interested in learning new skills.

Skills

WordPress • PHP • HTML/CSS • JavaScript & jQuery • SEO • WordPress Security and Obfuscation • Bootstrap • Responsive Design • Accessible Design • Git and Github • APIs/AJAX • User Statistics with Google Tag Manager and Google Analytics

Work Experience

- Feb to Aug 2016 **WordPress Developer @ [SEOcial](#)** Toronto
 - As the sole employee working under two busy owners, I was responsible for constantly taking on unfamiliar tasks and self-learning.
 - Developed responsive custom WordPress themes from PSD designs.
 - Developed custom plugins, shortcodes and widgets.
 - Worked with PHP, JavaScript, jQuery and frameworks such as Bootstrap and Foundation. Used Sublime Text for coding and Photoshop for image editing.
 - *Portfolio of work done for SEOcial is available on request.*

Education

- Sep to Nov 2015 **Full Time Student @ HackerYou** Toronto
 - Full-time front-end development boot camp. 400+ hours of in-class training and eight major coding projects.

Portfolio

- **Pardalis & Nohavicka Lawyers** <http://pnlawyers.com>
 - WordPress site developed while working for SEOcial. My role was converting the design into a functional site. Wrote custom shortcodes, widgets and plugins.
- **Womens' Legal Education Action Fund Search** <http://www.leaf.ca/legal/search-cases/>
 - A custom WordPress search page built from scratch using JavaScript and jQuery.
- **Rachel Hawkes Cameron** <http://rachelhawkescameron.ca>
 - A portfolio site for freelance designer and illustrator Rachel Hawkes Cameron.
- **Burnt Tree Entertainment** <http://burnttree.ca>
 - Site redesign for a Toronto-based music management company.
